

## Auckland East Race Track

This track will be used for the 2021 Finals.

A few photos from last year to give an idea of layout

Auckland East race in 3 lanes. For the NZ Finals only 2 lanes will be used. Drivers will race once in each lane (race A and race B). The total time from A and B equals the race time

The road is straight but with a hump prior to the finish. This slows the cars before they go through the finish line

The track.

Cheerleaders to the right of the track

Cars approaching the hump

Cars approaching the finishing line

A car entering the finish

And braking after the finish

Looking through the finish line to the track end

The end of the track marked with tyres

Be warned. If cables are loose it is still possible to crash

Food stalls on one side of track

Cheerleaders on the other side

The upper car park for spectators use.  
See the map on the website for other parking.

The pit crew area. Large and flat allowing the team car and gazebos

The pit crew area is down a short path from the finish line. Many teams bring trolleys of some sort

Another trolley

A team who didn't bring a trolley

Car return

Not a good idea...
