02:33 PM Super Kids Cars	2	1		00:03
02:36 PM Races Finish - winning cars scrutinized				00:10
02:46 PM Prize Giving				

NOTES:

- 1 All times are estimated and subject to delays... and the weather!
- 2 The times from each race - A and B - are added together to create the race time for each race.
If a driver is disqualified the time, if known, will be recorded - with a 100 second penalty

3 All going well the races are as follows:

- Race 1 All 24 cars race twice (Race 1A and Race 1B)
- Race 2 The top 16 cars from Race 1 race twice (Race 2A and Race 2B)
- Race 3 The top 8 cars from Race 2 race twice (Race 3A and Race 3B)
- Race 4 The top 4 cars from Race 3 race twice (Race 4A and Race 4B)

The NZ Champion will be the winner of Race 4

- 4 If the weather, or other delays, prevents completion of races then the organizers reserve the right to change it, depending on the number of races that have been completed, as follows:

Worst Case

Race 1A has been completed:
The top 5 drivers from each lane in Race 1A (10 drivers total)
will race again in a one lane "shoot out"

Slightly better

Races 1A and 1B have been completed:
If the weather permits the top 8 drivers from Race 1 will race
again in a one lane "shoot out"
If the weather does not permit this the NZ Champion will be the winner of Race 1

Better

Races 2A and 2B have been completed:
The top 8 drivers will race again in a one lane "shoot out"
If the weather does not permit this the NZ Champion will be the winner of Race 2

Even better

Race 3A and 3B have been completed:
The NZ Champion will be the winner of Race 3

Best case

Races 4A and 4B have been completed:
The NZ Champion will be the winner of Race 4

Weird case

If something other than the above happens....
The organizers reserve the right to work it out on the day in the fairest manner possible
