Waitakere News

March 19th, 2014

This week's entertaining speaker was Graham Aylett, a Police Officer of 25 years standing who now operates his own Private Investigation business. With duties ranging from placing bets on horse races for the Queen Mother (when he was one of her security officers while she was on holiday in Scotland) to working on antiterrorist programmes in more exotic locations, his work provided some very interesting experiences! It was Kaikohe which proved the greatest challenge however, leading to Graham leaving the force and starting his own business ... the local 'hunting, and fishing' ethos being harder to deal with than all the other situations he'd faced ... and his need to achieve a better work:life balance too!

REMINDER: There will be no meeting at Starling Park on Wednesday next week as we're having a special meeting on Monday night :
