

2015 March the 4th

District 9910

VENUE THIS COMING WEEK for the 18th of February - IMPORTANT

Rex Davy Lounge, Lower Ground Floor, The Trusts Stadium

This location is about 100 metres from where we met last year and is the same location we were meeting at back in 2011.

The view of the room we will be in... looking at it from the outside. The room can be accessed by taking the lift down to the lower level once you walk inside the Trusts Stadium.

Facilities

Located on the Lower Ground Floor of the Trusts Stadium, Our clubrooms are large, and offer a fantastic view of the grandstand and number one ground.

Boasting a bar and catering facilities in the main salon, and the Rex Davy lounge - which also contains a small lounge, big screen tv and meeting facilities.

This week's meeting is 5.45pm for 6pm start at the Rex Davy Lounge

Guests Speakers will be:

<p>Ben Bookings: Lima Climate Change Conference</p>	<p>Here's just a little about me; I grew up in Waitakere and Waimauku, I was a prefect at Massey High School, and I have always enjoyed knowing West Auckland as home. I hold a bachelors degree in communications from AUT, and while studying there I mentored young Maori and Pacific Island Communication students. I developed a passion for youth education and have been working on documentaries, educational youth television programming, and projects involving organisations such as Youthline, the Mental Health Foundation, Rainbow Youth, and the Prime Minister's Youth Mental Health</p>

Last Week's Meeting the 26th of Feb - Combined Meeting with Henderson Rotary - Speaker was:

Terry Birse, CEO/Road Safety Education. They are the group behind the RYDA programme. A T (Terry) Birss CA(NZ), FCIS, FGIA, FIPA – CEO/Managing Director - Terry gave a very comprehensive overview of the RYDA program

Number 1 in road safety education

Road Safety Education Limited is the pre-eminent provider of road safety education for youth in Australia and New Zealand. The flagship RYDA Program is delivered to over 50,000 17-18 year old high school students, at 90 venues.

By participating in RYDA your school furthers their commitment to educating the 'whole student', providing an opportunity to learn essential life skills. Students are encouraged to take greater responsibility for themselves and their friends before they face the challenges of driving solo or as a passenger of a new driver.

RYDA is a one day program, conducted at an out of school venue, chosen to highlight crucial road safety messages. Supporting the graduate licensing schemes, the program focuses on the key government 'big five' road safety issues of speeding, DUI, fatigue, seatbelts and distractions as well as the importance of driving as a social responsibility.

Now is the time to equip young people with the tools and knowledge they need to stay safe on the road.

RYDA's learning is for life!

sessions

Students take part in six interactive sessions.

- **SPEED & STOPPING** Demonstrates the physics of stopping and crashing as well as discussion of car safety features. Students experience through practical observation the relationship between speed and stopping distance.
- **HAZARDS & DISTRACTIONS** An interactive session where students strategise about managing distractions and improving their hazard perception skills.
- **THE PERSONALITY TEST** A reflective session designed to show students how personality and mind-state are both important aspects of the total road safety equation. Students self-assess against five personality areas and use this tool to analyse risky situations in cars.

- **RIGHTS & RESPONSIBILITIES** A discussion, routinely led by a Police Officer on key risk areas for young drivers and passengers. Features hard-hitting videos on decision-making and choices.
- **AFTER THE CRASH** A powerful presentation by a speaker about the crash that changed their life. Features a personalisation exercise where students see how a similar crash would affect their life and plans.
- **GENEVIEVE'S STORY** A true and emotional story about a young driver and passenger involved in a road crash. Students analyse the crash and its contributing factors, discuss the ripple effect and develop plans for decision making in risky situations.

**GETTING BEHIND THE WHEEL
OF A CAR AS A
YOUNG DRIVER OR PASSENGER
IS SAID TO BE AMONG THE MOST
DANGEROUS THINGS A PERSON WILL DO
IN THEIR ENTIRE LIFE**
